

Tazewell-Mason Counties Special Education Association Professional Development Presentation

**Please Distribute To Target Audience:
General and Special Early Education Teachers and Assistants**

**Bridget Meis and Anna Owen
Starnet Region III**

Engineering in Preschool: Fostering Critical, Creative, and Innovative Thinking

In this workshop, participants will deepen their understanding of engineering and what engineering looks like in early childhood. Through engaging in hands-on experiences, participants will discuss ways to nurture the development of engineering habits of mind. There will be an opportunity to make connections to materials typically found in the early childhood classroom and natural engineering opportunities.

Date: May 16, 2019
Registration: 8:30am
Presentation: 9:00am to 3:00pm
Location: Avanti's Dome

**Pre-registration is required for all
participants**

Registration will be with Starnet:
