Hidden Curriculum: Practical Solutions for Understanding Rules in Social Situations

The Hidden Curriculum refers to a set of rules or guidelines that are often not directly taught but are assumed to be known. This "Curriculum" includes unspoken rules, slang, metaphors, body language, etc and can often impact social interactions, school or job performance and sometimes health and well-being. This session includes practical tips for teaching these hidden social needs and stresses the importance of making these a part of everyday life.

At the end of the session, participants will be able to:

- Define Hidden Curriculum
- Explain Hidden Curriculum's applicability to school, community and home
 - Identify Hidden Curriculum areas and items about school levels and into adulthood
