## **Executive Functioning Skills and Strategies**

- Do you have students who are disorganized and may not have the materials they need or do not turn in work they have completed?
- Do you have students that who struggle to start tasks and run out of time to do their best work?
- Do you have students that constantly multitask so tasks take twice as long as they should?

Participants in this workshop will gain a detailed understanding and foundation of executive function skills to increase competency and independence. Participants will leave this workshop with new “tools” including worksheets and resources.
