

Pekin Mobile Diner is a non-profit program that delivers meals to local citizens in the Pekin area who are unable to prepare their own meals.

Pekin Hospital provides our meals according to a menu-based program (see reverse side). The menu is prepared to address most dietary needs. The meals are delivered by the Mobile Diner's specially equipped van to the client's home between 10:30 AM - 12:30 PM Monday through Friday. The client chooses which days they wish to receive meals on a regular schedule. Any cancellations outside of the regular schedule must be called in before 12:00 PM on the previous day in order for the client not to be charged.

Clients desiring the service are expected to pay only the direct costs of the prepared meals. Prices are \$4.50 for the hot meal, with an optional sack meal for \$3.50. Prices are subject to change. Various payment options are available.

#### **Food Safety Instructions**

Hot cooked food that is not eaten within two hours of the time it is received should be reheated to a temperature of 165° Fahrenheit or higher before being consumed.

Cold food should be eaten within two hours or put in the refrigerator or freezer for later.

For service or more information, please call
